

MANAGERS WORD

Since its founding, TDS LOGISTIC has been on a road of growth and expansion in order to meet the needs of our valued customers.

From TDS LOGISTIC's humble beginnings, we have faced many challenges in order to bring the company to its position today.

Over the years, we have expanded our fleet of cranes, trucks and equipment from just a few to a modern fleet.

The additions of new equipment have allowed TDS LOGISTIC to offer more versatile and cost-effective services to our customers.

Our transportation department has grown to keep up with our customer's diversified needs. TDS LOGISTIC is now capable of transporting very heavy and large loads.

The company's fleet of trucks is now carrying heavy and large loads throughout Algeria. The company now services many industries including mining and construction throughout Algeria.

We pride ourselves in being the first and leading company in rig moves in Algeria. We value our customers and continue to strive for the personal touch for which TDS LOGISTIC has become known. As always, the foremost achievement at TDS LOGISTIC is the excellence of its talented employees. Our crane operators, drivers, service personnel are highly-skilled professionals. Our great management and office staff provide professional support our customers and crews demand and require.

I would like to take this opportunity to thank you for your business if you are already a TDS LOGISTIC customer. If you are new to our company, I invite you to try our equipment rental, rig moving, lifting accessories and heavy transporting services and discover the certain advantages our current customers enjoy.

We look forward to providing excellent service to you our valued customer in the coming years.

Sincerely, GUERROUT ABD ELOUAHAB, General Manager.

Our Base in Hassi Messaoud, Algeria

HSE

Safety is an integral part of **TDS Logistics** work. It is part of our operations and is there to protect our employees, clients, property, the environment and the public.

We foster the belief it is unacceptable for anybody to become injured on the job, and we want our personnel to endear this value of life with their families, and in their homes and local communities. Our mission is to create a value of life where embracing safe practices is at the heart of everyone's being, a future where all who are in the workplace are committed to, and recognize the goals of, working without incident or injury. **TDS Logistics** supports that commitment with training, technological advancements, education, management involvement and support. This is because we care.

The success of **TDS Logistics**, and our customers, is totally dependent upon our ability to always improve the quality of our products and service and, at the same time, ensure the safety of our personnel, as well as yours, our community and the environment. The prevention of occupational-induced injuries and illnesses is of such consequence that it is integrated into operating productivity. **TDS Logistics** is committed to providing mechanical and physical facilities required for personal safety and health in keeping with the highest standards and a safety and health program conforming to the best practices of organizations of this type. It also requires cooperation in all safety and health matters, not only between supervisor and employee, but also between each employee and his fellow workers. **TDS Logistics** Services objective is a safety and health program that will reduce the number of disabling injuries and illnesses

to a minimum, not merely in keeping with, but surpassing, the best experience of other operations similar to ours. Our goal is ZERO accidents and injuries. Our safety and health program includes:

- Providing mechanical and physical safeguards
- Conducting a program of safety and health inspections to identify and eliminate unsafe working conditions or practices; to control health hazards; and to comply fully with the safety and health standards for every job
- Training all employees in good safety and health practices
- Providing necessary personal protective equipment and instructions for its use
- Developing and enforcing safety and health rules and requiring that employees cooperate with these rules as a condition of employment = Thoroughly and promptly investigating every accident to determine the cause, correct the problem and prevent recurrence.
- We emphasize embracing human health, operational safety, environmental protection, quality enhancement, and community goodwill in our day-to-day Company culture. This commitment is in the best interest of our customers, personnel and contractors, and the communities in which we live and work.
- There are many costs to accidents and unsafe work practices. The greatest costs are human costs. By protecting our employees, we are also protecting their friends, families, fellow workers, management, the public and the environment, from the far reaching effects of serious accidents. We are also protecting our ability to continue doing business and employing people.
